

## ABSTRAK

Hairunnisa. 2020. Perencanaan Karir Siswa Disaat Pandemi Covid-19 (Studi Kasus Pada 3 Siswa SMA N 1 Jetis). Skripsi. Program Studi Bimbingan dan Konseling. Universitas Mercu Buana Yogyakarta.

Tujuan dari penelitian ini adalah untuk Mengetahui perencanaan karir siswa SMA N 1 Jetis disaat pandemi covid-19, dan untuk Mengetahui secara deskriptif perencanaan karir siswa disaat wabah pandemi covid-19 ini.

Penelitian ini menggunakan metode kualitatif. Subjek penelitian ini adalah studi kasus 3 siswa SMA N 1 Jetis yang mengalami kesulitan dalam perencanaan karirnya. Penelitian ini dilaksanakan di SMA N 1 Jetis. Pengumpulan data dilakukan dengan menggunakan observasi dan wawancara. Metode yang digunakan dalam penelitian ini adalah deskriptif dengan pendekatan kualitatif.

Hasil penelitian ini menunjukkan bahwa (1) Perencanaan karir subjek pertama siswa SMA N 1 Jetis masih belum efektif dalam mengambil keputusan dikarenakan subjek masih bingung terhadap kelebihan yang dimilikinya apalagi disaat pandemi covid-19 ini membuat subjek semakin merasa putus asa terhadap perencanaan karirnya (2) Perencanaan karir subjek kedua siswa SMA N 1 Jetis masih belum efektif juga dikarenakan subjek kedua ini masih tidak percaya diri dalam mengambil keputusan dan pandemi covid-19 ini juga merupakan salah satu penghambat subjek dalam menentukan pilihannya (3) Perencanaan karir subjek ketiga siswa SMA N 1 Jetis sudah berjalan dengan baik namun ada sedikit kendala dalam mengambil keputusan, dikarenakan keputusan kedua orang tua nya tidak sejalan dengan keputusan subjek, dimana subjek menginginkan menjadi seorang presenter atau pembawa acara televisi sedangkan orang tua nya menginginkan subjek menjadi seorang dokter, apalagi disaat pandemi covid-19 ini membuat subjek semakin tidak percaya diri untuk mengambil keputusan dari kedua orang tua nya.

Kata Kunci: Perencanaan Karir, Pandemi Covid-19

## ***ABSTRACT***

Hairunnisa. 2020. Student Career Planning During the Covid-19 Pandemic (Case Study of Jetis 1 High School Students). Essay. Guidance and Counseling Study Program. Mercu Buana University Yogyakarta.

The purpose of this study was to find out the career planning of SMA N 1 Jetis students during the covid-19 pandemic, and to know descriptively the career planning of students during the Covid-19 pandemic outbreak.

This study uses a qualitative method. The subject of this research is a case study of 3 students of SMA N 1 Jetis who have difficulty in their career planning. This research was conducted at SMA N 1 Jetis. Data collection was carried out by using observation and interviews. The method used in this research is descriptive with a qualitative approach.

The results of this study indicate that (1) the career planning of the first subject of SMA N 1 Jetis students is still not effective in making decisions because the subject is still confused about the advantages it has, especially when the Covi-19 pandemic makes the subject feel increasingly desperate about his career planning (2) The career planning of the second subject of SMA N 1 Jetis students is still ineffective because the second subject is still not confident in making decisions and the Covid-19 pandemic is also one of the obstacles for the subject in determining his choice (3) Career planning for the third subject of SMA N 1 students Jetis has been going well but there are a few obstacles in making decisions, because the decisions of his parents are not in line with the decisions of subjek, where the subject wants to be a presenter or television presenter while his parents want the subject to become a doctor, especially during the Covid-pandemic. This 19 makes the subject even less confident to take decisions from both parents.

Keywords: Career Planning, Covid-19 Pandemic
