INTISARI*

Penelitian ini bertujuan untuk mengetahui kontribusi pendapatan peternak dalam usaha mempekerjakan sapi sebagai pengangkut batu di Kecamatan Manna, Kabupaten Bengkulu Selatan. Penelitian ini dilaksanakan pada tanggal 30 Juli – 16 Agustus 2023. Materi dalam penelitian adalah peternak yang mempekerjakan sapi sebagai pengangkut gerobak batu. Penelitian dilakukan dengan metode survey dan wawancara. Jumlah sampel sebanyak 100 orang. Variabel penelitian ini antara lain ialah identitas peternak, pendapatan, kontribusi pendapatan dan kelayakan usaha Benefit Cost Ratio. Data yang diperoleh ditabulasi, dirata-rata dan dianalisis secara deskriptif. Hasil penelitian ini dapat diketahui pendapatan utama peternak Rp13.316.000, pendapatan tambahan Rp9.822.670 dan total pendapatan Rp23.138.670, lalu mendapatkan nilai Benefit Cost Ratio senilai 1,36. Disimpulkan kontribusi pendapatan tambahan adalah 42% dari total pendapatan peternak dan Nilai Benefit Cost Ratio >1 menandakan bahwa usaha ternak sapi gerobak batu di Kecamatan Manna, Kabupaten Bengkulu Selatan menguntungkan dan layak dijalankan.
