

Abstrak

Penelitian ini bertujuan untuk mengetahui hubungan antara dukungan sosial keluarga dengan *psychological well-being* pada pelaku gagal bayar pinjaman online. Adapun hipotesis dalam penelitian ini yaitu ada hubungan positif antara dukungan sosial keluarga dengan *psychological well-being* pada pelaku gagal bayar pinjaman online. Subjek dalam penelitian ini berjumlah 70 pelaku yang gagal dalam bayar pinjaman online. Metode pengumpulan data menggunakan skala, ada dua skala yaitu skala dukungan sosial keluarga dan *psychological well-being*. Data dianalisis dengan teknik korelasi *Product Moment* dari *Pearson*. Hasil analisis diperoleh koefisien korelasi sebesar (r_{xy}) = 0.572 ($p \leq 0.010$), ada korelasi positif antara dukungan sosial keluarga dengan *psychological well-being* pada pelaku gagal bayar pinjaman online. Hal ini bererti hipotesis penelitian diterima. Adapun sumbangan efektif dukungan sosial keluarga terhadap *psychological well-being* adalah 32,7 %, sementara sisanya 67,3% berhubungan dengan faktor lain.

Kata Kunci : *Psychological Well-being*, Dukungan Sosial Keluarga, Pelaku Gagal Bayar Pinjaman Online

Abstract

This study aims to determine the relationship between family social support and psychological well-being on people who failed to pay online loans. The hypothesis in this study is that there is a positive relationship between family social support and psychological well-being on people who failed to pay online loans. The subjects in this study amounted to 70 peoples who failed to pay online loans. The data collection method uses a scale, there are two scales, family social support scale and psychological well-being scale. The data were analyzed using Pearson's Product Moment correlation technique. The results of the analysis obtained a correlation coefficient of ($r_{xy} = 0.572$) ($p \leq 0.01$), there is a positive correlation between family social support and psychological well-being on people who failed to pay online loans. This means that the research hypothesis is accepted. The effective contribution of family social support to psychological well-being is 32.7%, while the remaining 67.3% is related to other factors.

Keywords : Psychological Well-Being, Family Social Support, People who failed to pay online loans.
