ABSTRACT

The development of transportation means is increasing in line with the growth in the number and activities of the community, especially in the Special Region of Yogyakarta. One of the public transportation in Jogja is the KOPATA city bus, the condition of the KOPATA city bus which is increasingly displaced by other transportation and prioritizes private services and comfort. Although later the city bus fleet transformed into Trans Jogja which was heralded as modern mass transportation, in reality this means of transportation has not been able to answer the public's need for adequate public transportation. The object of this documentary film is the chairman of KOPATA III, the founder of KOPATA, a former KOPATA bus driver, and people using public transportation services. The choice of the word “Roda Nasib Bus Kota” as the title of this documentary film is because it has a very deep philosophy, namely the slow down or disappearance of the KOPATA city bus in Yogyakarta. With these problems in terms of the current existence of KOPATA city buses, and how is the history as well as what are the obstacles of KOPATA bus management in Yogyakarta.
