

## BAB V

### KESIMPULAN

#### A. Kesimpulan

Penelitian ini dilakukan untuk mengetahui apakah ada pengaruh positif antara Tingkat *Intellectual Capital* perusahaan yang terbagi atas *Human Capital*, *Structural Capital*, dan *Relational Capital* terhadap Luas *Intellectual Capital Disclosure* yang terbagi atas *Human Capital Disclosure*, *Structural capital Disclosure*, dan *Relational Capital Disclosure*. Kemudian melanjutkan dengan melihat apakah luas dari tiap elemen *Intellectual Capital Disclosure* tersebut berpengaruh positif terhadap nilai pasar.

Hasil dari penelitian yang telah dilakukan sesuai model dengan Uji Hipotesis adalah sebagai berikut:

1. Ditemukannya pengaruh dari tingkat *Human Capital* perusahaan terhadap *Human Capital Disclosure* dengan hasil positif signifikan.
2. Ditemukannya pengaruh dari tingkat *Structural Capital* perusahaan terhadap *Structural Capital Disclosure* dengan hasil Positif signifikan.
3. Ditemukannya pengaruh dari tingkat *Relational Capital* perusahaan terhadap *Relational Capital Disclosure* dengan hasil Positif signifikan.
4. Tidak ditemukannya pengaruh luas *Human Capital Disclosure* dengan hasil positif namun tidak Signifikan terhadap nilai pasar.

5. *Structural Capital Disclosure* berpengaruh positif dan Signifikan terhadap nilai pasar dengan hasil positif signifikan.
6. Tidak ditemukannya pengaruh luas *Relational Capital Disclosure* dengan hasil positif namun tidak Signifikan terhadap nilai pasar.

Hasil tersebut menggambarkan bahwa perusahaan di Saham Indeks LQ 45 melihat tingkat *Intellectual Capital* Sebagai Indikator *Intellectual Capital Disclosure* dikarenakan banyak ditemukannya hasil yang signifikan dari penelitian ini.

Hasil penelitian ini juga menjelaskan bahwa dengan SCD yang lebih luas akan memberikan pengingkatan nilai pasar, sedangkan HCD dan RCD tidak terlalu berpengaruh terhadap nilai pasar. hal ini disebabkan masalah kondisi ekonomi beberapa tahun terakhir yang diakui sebagian besar manajemen perusahaan dalam laporan tahunannya dan juga penilaian investor maupun pasar yang masih melirik pada sumber daya fisik perusahaan sebagai sebuah harga dibandingkan IC yang masih tergolong *intangible asset*.

## B. Keterbatasan

Keterbatasan penelitian ini adalah sebagai berikut

1. Penelitian ini menggunakan analisis isi pada penentuan pengukuran *disclosure* dimana tidak luput dari subjektifitas peneliti dalam membaca, memahami, dan melakukan *check list* atas laporan tahunan perusahaan

untuk mengidentifikasi informasi ICD menjadi tidak terelakkan. Terlebih penelitian dan penentuan *disclosure* hanya dilakukan oleh seorang diri.

2. Item *Intellectual Capital Disclosure* yang terbagi atas *Human Capital Disclosure*, *Structural Capital Disclosure*, dan *Relational Capital Disclosure* mungkin belum secara Komprehensif dalam menangkap relevansi ICD tiap elemen IC sesuai dengan pengungkapan pada laporan tahunan perusahaan yang dilakukan oleh perusahaan di Indonesia.
3. Penelitian ini menggunakan manual dalam analisis isinya untuk mencari pengungkapan yang dilakukan perusahaan namun tidak bisa mendeteksi beberapa data laporan tahunan yang seharusnya bisa menjadi sampel dalam penelitian ini.
4. Penelitian ini hanya membahas pengaruh elemen IC yaitu HC, SC, dan RC terhadap ICD dan tidak melihat pada faktor lain yang diindikasi dapat mempengaruhi ICD seperti size, ROA, ROE dan faktor lain.

### C. Saran

Adapun saran untuk penelitian selanjutnya adalah sebagai berikut:

1. Mencoba metode lain misalnya Analisis structural equation modeling (SEM) atau model lain dalam diagram jalur yang dapat lebih menjelaskan pengaruh atau hubungan antar variabel misalnya menambah jalur pengaruh langsung dari HC ke nilai pasar.

2. Hendaknya pada penelitian selanjutnya dilakukan oleh sebuah tim atau setidaknya pada penentuan *disclosure* di laporan tahunan dilakukan tidak hanya oleh peneliti seorang diri untuk mengurangi tingkat objektifitas.
3. Mencoba pengukuran tiap Elemen IC dengan proxy yang berbeda dan lebih mendukung dalam penentuan nilai tiap elemen IC perusahaan dengan penelitian ini misalnya dengan pendapatan dibagi *full time employees* (FTE) untuk *human capital*, *intellectual property*/total asset untuk *structural capital* dan indeks herfindal untuk *relational capital*.
4. Menentukan Item *Disclosure* yang lebih komprehensif dan sesuai dengan model pengungkapan di laporan tahunan perusahaan yang ada di Indonesia.
5. Menambahkan faktor lain sebagai indicator penentu ICD seperti size perusahaan, ROA, ROE, Leverage dan faktor berpengaruh lainnya untuk melihat seberapa besar pengaruh tiap faktor disbanding elemen dari IC.
6. Menggunakan atau menambah data lain selain laporan tahunan dalam melihat pengungkapan yang dilakukan oleh perusahaan misalnya pada website perusahaan.

#### **D. Implikasi Manajerial**

Penelitian ini diharapkan dapat memberikan manfaat bagi pihak-pihak yang terkait antara lain:

1. Bagi perusahaan: menjadi salah satu informasi mengenai IC dan ketiga elemennya yang pada dasarnya memiliki sifat yang berbeda dan penting

untuk diungkapkan untuk mencegah adanya asimetri informasi dan dapat menarik perhatian para investor dan calon investor.

2. Bagi Investor: menjadi salah satu Informasi bahwa perusahaan memiliki aset-aset tidak berwujud dengan kriteria sebagaimana yang dipaparkan.
